# Doing Business with the District

## The Purchasing Department

The Clark County School District purchases goods and services for an ever growing number of schools and students. The centralized purchasing function purchases on behalf of schools in Las Vegas, North Las Vegas, Henderson, Laughlin, Boulder City, Mesquite, Sandy Valley, Indian Springs and Moapa Valley.

The District purchases supplies, equipment, and services to support schools, administrative buildings, food service, transportation, facilities, and other District operations.

The Purchasing Department continues to strive to build supplier relations in all communities including suppliers of MBE and WBE designation.
